

CRIMSAFE SAFE - S - CAPE

FACTSHEET

EMERGENCY EXIT SYSTEM

The Safe-S-Cape is a unique key-less exit system. Even though Safe-S-Capes are a quick release emergency exit grille, they are still incredibly difficult to penetrate from the outside as they feature the same screw clamp system as traditional Crimsafe grilles.

TECHNICAL INFORMATION

TENSILE-TUFF® SECURITY MESH

Crimsafe Safe-S-Capes Tensile-Tuff® 304 Grade Stainless Steel mesh.

SCREW CLAMP SYSTEM

Crimsafe Safe-S-Capes features a patented Security Screw Clamp System. While inferior products simply glue or wedge mesh into a frame, Crimsafe sandwiches Tensile-Tuff® Security mesh between two serrated pieces of aluminium, then screws this mesh into place. This results in a strong, vice-like grip which has a much stronger tolerance to force than many competing products.

CLIP-ON COVER

Crimsafe Safe-S-Capes also features a clip-on cover which creates a sealed chamber, concealing the screw clamp system and protecting it from the elements, as well as adding an extra layer of security.

COLOUR

Crimsafe Safe-S-Capes is available in a variety of different frame colours. Various woodgrain and custom colours are also available, and offer a look that is impressively realistic.

HINGED

Crimsafe Safe-S-Capes can be hinged at the top or sides and made to swing outward or inward. This makes them suitable for most window openings (size permitting).

Close-up from inside

BENEFITS

EXCELLENT SECURITY

Crimsafe Safe-S-Capes allow an easy exit from inside, but remain incredibly difficult to penetrate from the outside.

QUICK EXIT

A Crimsafe Safe-S-Cape allows for a quick exit in an emergency.

ENERGY-EFFICIENT

Crimsafe reduces solar heat gain by up to 53%. The Tensile-Tuff® security mesh also blocks 62% of harmful UV rays.

SATISFACTION GUARANTEED

Quality product is assured with our specialist team, and peace of mind with a 12 Month Warranty.
